the staff report, which lists the bills that the WRWC has supported or opposed. He provided a brief summary of the actions taken to date by the Legislative Subcommittee and the outcome, which are as follows:

- Assembly Bill (AB) 442, which prohibits local governmental entities (including the WRWC) from making expenditures for lobbyists. The Subcommittee opposed the Bill as written. The Bill died in Committee.
- Senate Concurrent Resolution (SCR) 2, which encourages entities that are engaged in water quality monitoring to coordinate certain activities. The Subcommittee supported the Bill. The Bill passed both Houses. The Truckee Meadows Water Authority (TMWA) Board approved a Memorandum of Understanding (MOU) related to the Bill; the MOU will be presented to the WRWC at the next meeting.
- Senate Bill (SB) 345, which makes an appropriation to the Truckee River Flood Project to support ecosystem restoration activities in the amount of $5 million (which is not currently available). The Subcommittee supported the Bill. The Bill is still alive; however, the prospects do not look good.
- SB 175, which makes provisions for facilitating the flood control district. The Subcommittee supported the Bill, which is alive in the Assembly but would result in a political mandate.
- SB 111, which relates to technical amendments to the Western Regional Water Commission. The Subcommittee supported the Bill, which passed and is in the Governor’s office.
- SB 224, which revises provisions governing voting and abstentions by public bodies composed of elected officials only. The Subcommittee opposed the Bill, which has been dropped.
- AB 119 by Assemblywoman Leslie, which requires the Truckee Meadows Regional Plan to include policies that are based on identified and sustainable water resources within Washoe County (based on the approval of Washoe County Ballot Question 3). The Subcommittee supported the Amended Bill. The Bill passed both Houses and has gone to the Governor as a political mandate.
